Dear "A" Camp Families,

"A" Camp is open to children and teens of all abilities and circumstances and we are happy to work with families who have children with special needs. When completing the "Emergency, Information and Immunization Card", please do not omit any relevant information regarding your camper's health from the reverse side. For any families that have a child who takes medication for a cognitive, behavioral or attention issue, please keep in mind that, while our camp is more active and contains less traditional learning than a classroom, campers still need to be able to receive direction for their safety and the safety of others as well as listen to counselors and guest speakers. With this in mind, if you were planning on suspending their medication for the time that they are at camp, please reconsider doing so based on those needs.

Additionally, if your child will be taking such a medication, because those medicines are water-soluble, what might last them through the normal 8-hour school day may not be sufficient for a 9 or 10-hour camp day where they will be drinking more water and sweating more due to the active nature of the camp. Please consult with your child's doctor if you have any concerns regarding their dosage. If you need any further clarification or would like to discuss the parameters of the camp and/or your child's needs, please do not hesitate to reach out to me and I would be happy to work with you so that your family has a great experience this summer.

Thank you and see you soon!

Samantha Wallace

Youth and Activities Coordinator
